SUMMARY

Full Stack Web Developer looking for a creative environment to hone the skills acquired in the DU Web Dev Bootcamp. Professionally you can expect adaptability, time management and conflict resolution to coincide with a technical skill set. Passionate about CSS and creating a polished user interface.

TOP THREE PROJECTS

Sci-Fi/ Comic Book Fact Check Website

Using HTML, CSS and API calls to bring all the latest character information to your browser. Currently presenting character facts and Gif's for any Marvel or Star Wars persona.

REPO :: <https://github.com/pagelhunt/Project1> Deployed Site :: <https://pagelhunt.github.io/Project1/>

Recycling Website

Using Passport, JQuery, two API keys from Google Maps and Earth 911 and five API calls to find all the nearest recycling locations near you.

REPO :: <https://github.com/groven74/Be-Green-old> Deployed Site ::

Recycling Website

Taking the original website and transforming it using REACT. We added authorization for user registration/login, where users can store there favorite recycling locations. Search the NY Times for more information on climate change and related subjects. Watch informational videos and find links to outsourced websites to discover why, what and how to recycle. Finally, chat it up with other users about your current sustainability goals and actions.

REPO :: <https://github.com/Cmanent/ClassProject3> Deployed Site :: COMING SOON
